Introducing RC Technologies' Premium Wi-Fi Wi-Fi 6 Technology

Not your basic Wi-Fi. Premium Wi-Fi is something special; it's new and advanced Wi-Fi technology. **Premium Wi-Fi providing the Ultimate Wi-Fi Experience powered by RC Technologies BLAST with Wi-Fi 6.** Premium Wi-Fi is everything you ever wanted in Wi-Fi and more!

What Is So Great About It

Wi-Fi 6 is the newest and fastest Wi-Fi standard which will be the foundation for a large group of current and emerging devices and apps today and in the very near future. Wi-Fi 6 has the increased capacity to push higher data rates to apps and devices to be able to stream ultra-high definition video thus lowering latency for a positive Wi-Fi experience for the Internet of Things—devices, apps, streaming, etc. as warp speed innovation continues. In another words, RCT is preparing you and your home as you update your phones and/or devices now and over the holiday season as the technology and devices will have the same advance Wi-Fi 6 as you'll be able to get in your home! One example, the new iPhone SE.

Who Can Get Premium Wi-Fi

Nearly everyone. Households with fiber or fixed wireless can get Premium Wi-Fi powered by RC Technologies BLAST with Wi-Fi 6 technology. Some fixed wireless customers in the Big Stone Lake and Milbank areas have begun to enjoy the advanced Wi-Fi technology.

RC Technologies fiber customers in New Effington, Claire City, Veblen, and Peever area starting to use Premium Wi-Fi are instantly noticing an increased capacity for multiple devices and better Wi-Fi coverage.

Wilmot and Summit areas, fiber and Premium Wi-Fi is headed your way beginning Summer 2021.

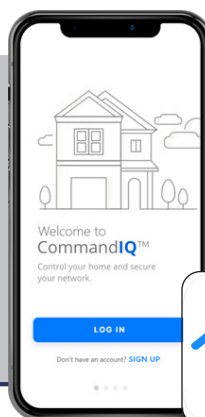

How To Get It

It's easy, just call RC Technologies and ask about Premium Wi-Fi for your home. Premium Wi-Fi is included in some fiber speed packages. Inquire Today!
