

Monthly Newsletter for patrons of RC Technologies
Vol. 19 No. 1 January 2021

**Health & Happiness
in the New Year!**

RC offices will be closed at 1 p.m.
on Thursday, New Year's Eve and
Friday, January 1st, New Year's Day.

Prioritizing What's Important in 2021

The pandemic and 2020 has caused many of us to rethink what's important and prioritize some things we've been a little relaxed on. Below are common areas many of us will focus on in 2021.

Health. With the heightened awareness to keep safe and stay well during COVID, people have put their health in the forefront. Social distancing at home has had some people even adopted a fitness routine not only for their health, but for mental health too. Continue to prioritize your health into the new year with routine wellness exams, eating right, and physical activity around home. Remember, consult with your doctor before starting a new exercise program or fitness routine.

Peace of Mind. Peace of mind is the sense of feeling safe and protected. **Online safety** falls under this category. ProtectIQ through the CommandIQ app, provides you an added layer of protection against malicious online traffic at your home's network level. Proactive steps like adding network protection like, ProtectIQ, can provide peace of mind.

Balance. Life can be busy and chaotic for some. Many adults are juggling work (or work from home), their kids in battle of homework time vs. play time along with a ton more stuff.

ExperienceIQ puts you in control. Create family profiles with a dashboard to view connected devices and applications, usage, filter content, and remove/allow/set time limits on apps or devices. ExperienceIQ is a tool to use to help set boundaries for play time, school time and family time. Call RC Technologies at 637-5211 to setup through the CommandIQ app.

You'll be ready to handle whatever life throws at you.

ProtectIQ™ | Enhanced suite of CommandIQ

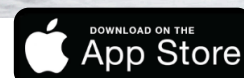

ProtectIQ is network protection that provides peace of mind. It works behind the scenes scanning viruses and other unwanted traffic with to dashboard to view activity of it working.

ExperienceIQ™ | Enhanced suite of CommandIQ

Parental controls. Manage screen time, content, and access to sites and apps...from the CommandIQ app.

**Add more peace & joy in the New Year,
Call about ProtectIQ™ and ExperienceIQ™ today!**

Scholarship Applications Now Available

TECHNOLOGIES

RC Technologies Scholarship

Opens January 1, 2021

RC Technologies individually awards two \$500.00 scholarships to graduating high school senior whose families are current patrons of RC Technologies. Qualified applicants will be asked to submit an application along with a personal essay, letters of recommendation and a chronological list of organizations and/or work history. All documents will be reviewed by the Scholarship Committee as part of the selection process. Application deadline is March 31, 2021.

**FOUNDATION FOR
RURAL SERVICE**

FRS Scholarship

Opens January 1, 2021

The Foundation for Rural Service annually awards scholarships to an exceptional group of rural students for their first year of college or vocational school. All applicants require sponsorship by an NCTA The Rural Broadband Association member company to be eligible. RC Technologies is an NTCA member, contact us regarding information need on the sponsor page.

Learn more about FRS scholarship at frs.org/programs.

**MyTVs
App**

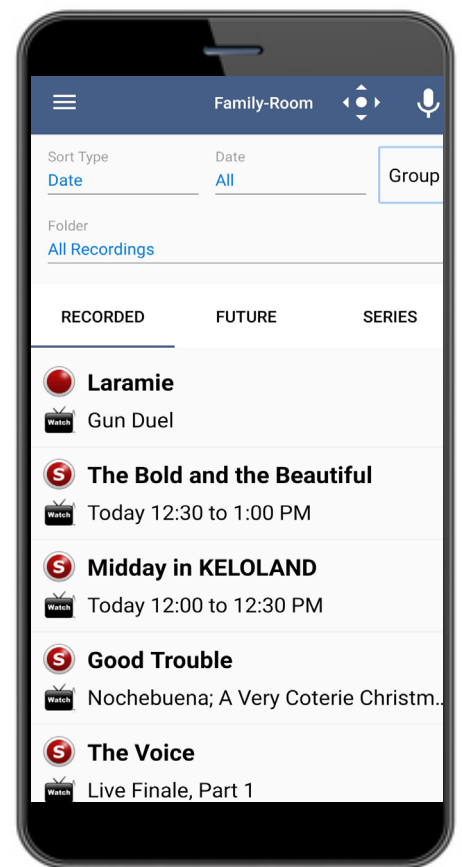

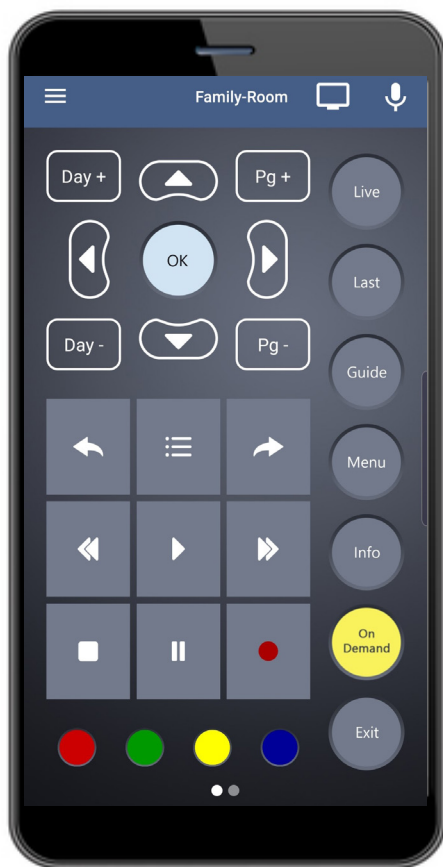

Turn Your Smart Phone (or Tablet) into your TV Remote

Never miss recording your favorite show or lose the TV remote again! If you have a smart phone and the MyTVs app, you will always have your TV remote and DVR with you!

With the MyTVs app, you can manage your TV and DVR recordings from anywhere. The app allows you to connect to your DVR, to schedule and manage DVR recordings when you're not at home. Schedule new recordings or view the schedule of the programs currently set to be recorded. You can also view and search the TV program guide for your favorite shows or programs.

What the MyTVs App Can Do

- View and search the program guide
- Filter changes on program guide and favorites
- View list of recordings from your DVR
- Manage all DVR recordings— schedule a *One-Time* or *Series*, delete existing recordings, view list of recorded programs
- Change channels and use remote control functions

How To Set Up the MyTVs on a Smart Phone or Tablet:

1. Download the MyTVs app to your smart phone (or a tablet) from the App Store for Apple or Google Play for Androids.
2. Next, you need your TV and RCTv remote. With the remote pointing at your TV screen, press the MENU button, next arrow down to "Settings". Arrow over to the top of the next list to "Apps" and on the top of the next list to "Device Code" and press OK. A box will pop up and a code will appear, enter it into your smart phone.
3. Once entered, you can change TV channels or set the DVR to record from anywhere— school, work or home, all from your smart phone!
