It's not your basic Wi-Fi, **PREMIUM WI-FI**, is next generation Wi-Fi, the most advanced Wi-Fi 6 technology providing you the **Best Wi-Fi Experience** delivered by **RC Technologies' BLAST**. Premium Wi-Fi is everything you ever wanted in Wi-Fi and more!

## What Is So Great About It

Wi-Fi 6 is the latest and fastest Wi-Fi standard which will be the new foundation for a large group of current and emerging devices and apps today and into the future. Wi-Fi 6 has an increased capacity to push higher data rates to devices and apps to be able to stream ultra-high definition video. You will want your home's wi-fi network running at that same increased capacity to continue to have a positive Wi-Fi experience for the Internet Of Things (devices, apps, streaming, etc.) as warp speed innovation continues.

▶ **Next Gen Wi-Fi**
▶ **30% More Efficiency**
▶ **Reset Network Name**
▶ **Reset Password**
▶ **Set Up Guest Network**
▶ **Set Parental Controls**
▶ **Device Connection**

RC Technologies is preparing your home for TODAY and TOMORROW as you update your cell phones and add other devices. So when bring home the latest devices, you will be operating at optimal Wi-Fi capacity with best through-put of data. Examples of Wi-Fi 6 devices already in retail stores are the Samsung Galaxy Note20 and Apple iPhone SE.
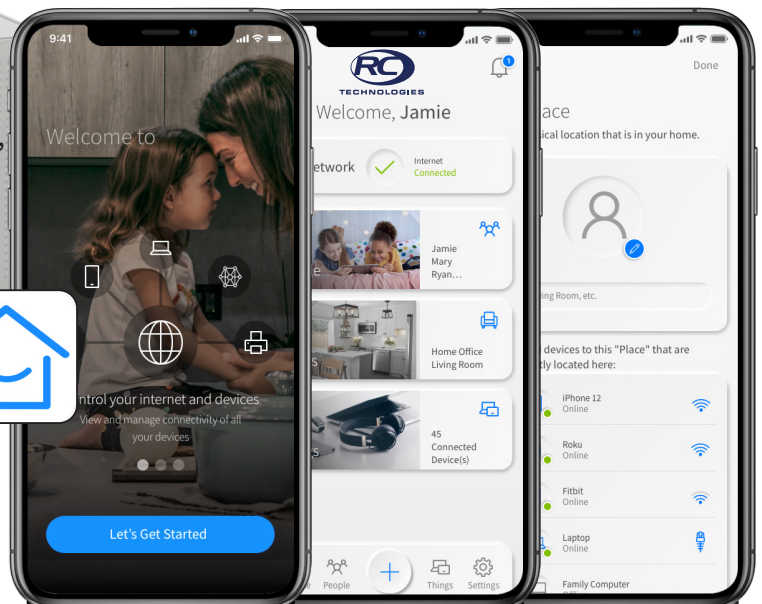

Note: Earlier generation devices <u>may</u> work with Premium Wi-Fi. Legacy devices with Wi-Fi standards of 802.11 a, b, g, and n could experience trouble connecting or latency.
