# PREMIUM WI-FI

Wider Wi-Fi Coverage You Can Control with Command**IQ**® app

- Protect**IQ**, Network and Device Protection, sends a report of blocked threats via Command**IQ**.
- Experience**IQ**, Enhanced Content Control, an option to customized or pause certain devices

The Ultimate WI-FI Experience!
BLAST Router with the CommandIQ app

It's not your basic Wi-Fi, **PREMIUM WI-FI**, is next generation Wi-Fi 6. The most advanced technology delivered by **RC Technologies' BLAST** router. Premium Wi-Fi is everything you ever wanted in Wi-Fi and more!

Why It's the Ultimate Wi-Fi Experience

Wi-Fi 6 is the latest and fastest Wi-Fi standard the new foundation for a large group of current and emerging devices and apps today, and into the future. Wi-Fi 6 has an increased capacity to push higher rates of data to devices and apps to be able to stream ultra-high definition video. You'll want your wi-fi network running at that same increased capacity to continue to have a positive Wi-Fi experience for the Internet Of Things (IoT) wireless devices, streaming app, etc. as innovation continues at warp speed.

▶ Next Gen Wi-Fi 6
▶ 30% More Efficiency
▶ Reset Network Name
▶ Reset Password
▶ Set Up Guest Network
▶ Set Parental Controls
▶ Device Connection

RC Technologies is providing your home with Wi-Fi needed for today while preparing it for future updates to smart phones, TVs, and other devices. So when you bring home the latest devices, you're operating at optimal Wi-Fi capacity with best throughput of data. Examples of Wi-Fi 6 devices in stores are the Samsung Galaxy Note20 and Apple iPhone
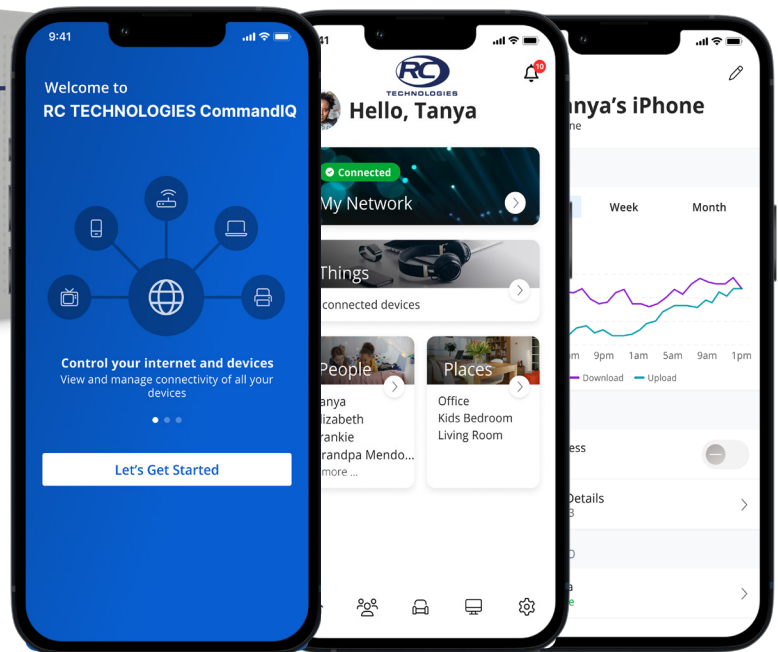

Note: Legacy devices with Wi-Fi standards 802.11 a, b, g, and n could experience trouble connecting or latency.
