### Roberts County Telephone Coop Association

A group of farmers took-on the role of providing communications  
to the area when no other company would, hence  
Roberts County Telephone Cooperative was established. This is  
our roots and the foundation of what RC Technologies is today.

October 2022 Vol. 20 No. 10

## CELEBRATING THE COOPERATIVE SPIRIT

October is Cooperative Month. RC Technologies would like  
to take this time to say Thank You for your part in the  
*Cooperative Spirit*.

This collective partnership makes it possible to provide  
communication to families, friends, and neighbors in your  
community, but in other neighboring communities too.

Working together toward a common goal, like having an  
advanced communication technology like fiber broadband  
for our area, offers many more opportunities for education,  
business, employment, access to healthcare —enhancing the  
lives of people and sustaining our rural way of life.

### LIFESTYLE
