Budget TECH UPGRADES

To Give Your Porch, Patio, or Deck a *Lux* feel

Upgrading your patio doesn't require a massive budget or major renovation. With a few affordable strategic tech additions, you can completely transform the mood, comfort, and convenience of your outdoor space.

Here's a list of a few simple items that can elevate a space to feel more luxurious without the lofty price.

Smart Power & Lighting

Smart Plugs for Outdoor Use (~\$15 - \$25)

Adding a touch of fanciness can simply be scheduling patio lights, fountain, fan, or holiday decor to turn on automatically at sunset or control them with your phone or voice commands. Devices like the **TPLink Kasa Outdoor Smart Plug** or **Amazon Basic Outdoor Smart Plug** are weather-resistant and give you instant control features.

Smart Outdoor String Lights (~\$40 - \$70)

Smart budget lights like those from **Govee** let you dim the brightness, control color, or set a vibrant scene for a party from an app.

Solar-Powered Accent Tech (~\$20 - \$40)

Solar-powered path lights or small solar-powered spotlight provide nighttime visibility and security with zero wiring. Modern versions have dusk-to-dawn sensors and warm-white LED options for a relaxed vibe.

Rechargeable Table Lamps (~\$15 and up)

Cordless LED table lamps can add instant "hip-factor" to your patio, porch, or deck. They create ambient lighting without running extension cords and are rechargeable with a USB.

THANKS DAD

To all the Wrench Wranglers, Grill Genuises, Garden Gurus... **Dad, you're the BEST!**

Whether you've shared your love of sports, grilling tips, love of meticulous yardwork, or life's wisdom, we want to **thank you** for all you've done for us, the life lessons you've shared, making us laugh, even those embarrassing Dad jokes!

Audio & Entertainment

Ultra Portable Waterproof Bluetooth Speakers (~\$30 - \$60)

Background music is always welcoming when you enter a space. It sets mood and adds to the moment of any occasion. Getting music from your phone for everyone to enjoy is easier and affordable with ultra portable speakers like **Anker Soundcore** and **Tribit PocketGo** or **Storm Box Portable Speaker**.

Budget Mini-Projector Set Up (~\$70 - \$129)

Create a low-cost outdoor movie night with many more to come! With a budget 1080p mini-projector paired with either a blank white wall, cheap pull-up screen, or a bed sheet, can easily turn into outdoor theater after dusk. **HAPPRUN Native** or **TMY Mini Projector** comes with HDMI and USB ports, and can be bluetoothed to speakers for great audio.

Comfort & Climate Control

Misting Fan Attachments (~\$12 - up)

If you already have a patio fan, you can buy a low-cost misting line kits that attach directly to a fan grill then twist onto a standard hose, dropping the surrounding air temperature by about 20 degrees on hot days.

Thermacell Patio Shield (~\$27 - up)

Thermacell Fuel-ZoneGuard Base Mosquito Repeller can make get-togethers more enjoyable when you don't have to fight off bugs. While this is not "smart home" tech, this gadget uses specialized heat-activated tech to create a 15 ft mosquito-free zone without smelly sprays or smoky torches.
